I would like to sell the rights to this model auction style (just the obj, 3ds, or lwo file, not an actual 3d print) Anybody interested?

I made it best I could I'd like to see it get made into something better!

More info: Made in anim8or, pretty basic and probably not worth that much. I am 12 years old and am looking for a way to earn money. Take a look at my shop and check some of my creations.

Hi. Your model may be basic, but you have to start somewhere, right?

A good place to sell model files is Turbosquid.com. The quality there is often mind-bendingly awesome, but if the price is right and it is exactly what someone needs you can make decent sales.

Make sure you try some other programs as well to get a feel for their strengths and weaknesses. Other good free programs are Sketchup, Blender, Wings3D, and Sculptris. Good luck with your modeling!
