Hi, I've two questions

How does one remove items from the trolley? I can see there's something in it, but I can not see what it is, neither can I remove it.

If you look at your part somewhere it says "Material Restrictions". What does it mean?

Hi Svenpb

You can set restrictions on your model material. For instance: if you select White Strong and Flexible, other people can only order your model in White Strong and Flexible.

hope this helps,

Cheers,

Ralph
