Hello

My name is Manuel Thomas and I am new to Trinidad and Tobago from the US. I am live in the Sangre Grande area and am looking for someone that is interested in 3d modeling and shapeways. I have a huge project that I would like to share with someone like minded ....the project would be a german ww2 rocket motor.

thanks  
Manuel

Hey Manuel,

Welcome to Shapeways. How did you find us?

So you're looking for someone to help you 3D model the German rocket motor?

Can you narrow that down a bit? The Germans created a very large line of rocket motors, from the Panzerfaust up to the V2. Are you looking for a life size replica or a small model? If it's a model, what scale are you looking for?

Hi Manuel,

i believe that when you ask your question here you will get more response.

Modeler needed

Modeler for hire

Hope this helps you out a bit!
