Hey All!

I'm a cartoonist/illustrator seeking to work with a 3D character modeler to bring some of my 2D creations to life!

Right now I'm in "explorer" mode as I look at what is possible, and wow!

Characters that I'd be looking at creating are from my comic book/graphic novel series "Araknid Kid":

Or Heropotamus: <http://www.heropotamus.com>

or the main character from "Baxter Beaver's Bad Breath"

Feel free to peruse my work at <http://joshalves.com> to see if anything sparks your interest.

Like I said, I'm just info gathering right now. Feel free to contact me with rates/portfolios.

I'm also interested in partnering/collaborating if that interests you as well.

Thanks for looking!
