I have worked doing animation in Maya. but have never done this process before.. I am an artist and sculpture and I was wanting to make a metal Bracelet that has some Cherokee Designs and characters on them.. Where is a good places to start? sample model of thickness to bring in and adjust ? advise, perhaps could help too.

Hi Joseph,

Welcome to Shapeways! We ask that you start off sharing a little about yourself, check out our introduction guidelines here.

Very cool design. It sounds to me like you might be wanting to hire someone to help you move this concept forward. Or are you looking for suggestions on how to do it yourself?
