Hello Sorry im very new to this, i thought i can use image popper to make a prop for my Batman movie master figures. i had an image for a batman grapple gun and cleaned it and made it black in white using Photoshop. then tried using image popper but it looked warped. anyway im trying to make movie props for this toy line and would like pointers possible programs. honestly i have no skill in drawing or designing but i will take any input to make this work out

Best,

Mel
