I need 1/100 (15 mm) WW2 Tank modellers.

I dont want scaled down from bigger scales. (1/35-1/56 vs)

Models should be especialy for 1/100 3D print.

For example, thin parts will be much more thicker from original 1/1 scale.

Lastly, tanks should be 3 main seperate parts.

(Tracks, Hull, Turret)

Models will be used for wargame.

If anyone interest, send me pm please.

Best Regards.
