Â»You & MeÂ« - cast in 925 Sterling silver.

See the design on Shapeways

The body parts of the Scrappies are inspired by everything that can be found in a scrapyard: Old bolts and nuts, rusty coils, pipes, parts of ball bearings, tin cans, and more. The figurines are cast in minute detail, including "rust holes" and traces of an alleged "welding". The scrap metal look gives the characters their own special, irresistible charm.

The N and S, is that for North and South, as in opposites attract?
