Hi all,,

just had a look over here, and didn't see any post of me saying hi.

I'm Mitchell Jetten (nick: Jettuh) 17years.
The first time i heard about the 3d printing world, i started searching for producers of 3d printing,
and so on i got here on shapeways,

Normally i don't create manifold/watertight etc models, but speciallyt for this i've created a
dwergein (train signal) which is printed 4weeks after the discovery of SHAPEWAYS

Made in 3ds Max.

atm, i'm creating several things, you can see it like this:
i create 10 things, but just 1 thing will get to the finish line

see you soon (ohh btw,, i'm creating a "Break dancer" as we speak -an amusement attraction-)
