My name is Aaron zhu. I'm a 3d modeler.

I can work with really high detailed model or very simple designs.

why pick me? I'm really fast!!

I'm a custom knifemaker and I think this might be an incredible way to model knife handles. I have all my knives drawn up in 2D in AutoCad and I'm looking for someone to take it to a 3D model and add textures to it. I will pay the fair price for the help.

Hello,

I only have a couple of pictures of the door knocker I want made into a functional metal one. Will to pay \$50 or more depending for the completed piece. We can talk about price more. Its off a movie. Scary movie 2. I will attach the picture. Its a gag gift for a friend. There are other angles pictures if you want me to send them. Just let me know.

Thank you for your time.

Allen
