Hello evrerybody,

I'm looking for someone, who can make a few models for me, starting with a small gunship!  
I have only this picture, and I really do not know if this would be enough, but I would appreciate any eventual offers! Thank you very much for your time!

Hello,

I'm a 3D modeler and texture artist with an MFA in 3D Modeling from Academy of Art University.

I really like the schematic pictures of the gunship! As long as you have the reference images, I can model it.

Feel free to look through my shop, here:

<http://www.shapeways.com/shops/jonnysmodelshop>

You can also check out my demo reel on my Web site:

<http://jonfesmire.com/>

And definitely my zBrush speed sculpture channel on YouTube:

<http://youtube.com/creatureshop>

I hope to hear from you soon. Let's discuss the job and a fair price!

Best,

Jonathan Fesmire
