Subject: Resizing model options Posted by Tombalina on Sat, 28 Apr 2012 13:38:20 GMT View Forum Message <> Reply to Message

Hi, I've just loaded some models up, but one of them is very small. Is there some way to change the size/ scale options so people can order either big or small versions?

Thx

At this time, there's no option to change the size AFTER you have uploaded a model. And, you must upload multiple models to offer them in a range of sizes.

I was sure that I had submited an entry at http://feedback.shapeways.com for allowing customers to pick a multiplication factor, but for some reason, I can't find the entry right now.
