Hey all,

We have 2D and 3D drawings that we would like to have converted into a 3D model for printing.

Let me know if you can help. Thanks!

If you send me your drawings squarerootofnegativeone@gmail.com I can give you a quote on how much it would cost to draw. Print cost depends on scale and material you want used.

I do have access to machining equipment if you need something large made.
