

About Shapeways

Additive manufacturing is complicated—we simplify it. Shapeways scales on-demand 3D printing with comprehensive digital manufacturing solutions that automate workflows. Our purpose-built software, wide selection of materials and technologies, and global network of verified partners lower manufacturing barriers and speed delivery of quality products to customers worldwide.

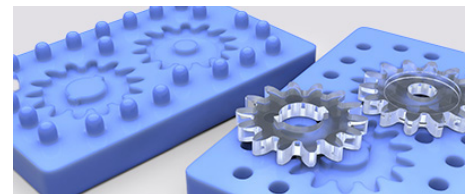

Capabilities

On-Demand 3D Printing

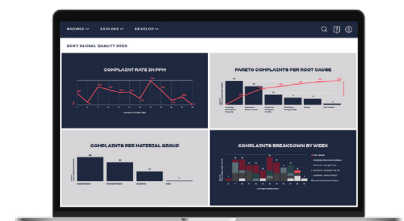

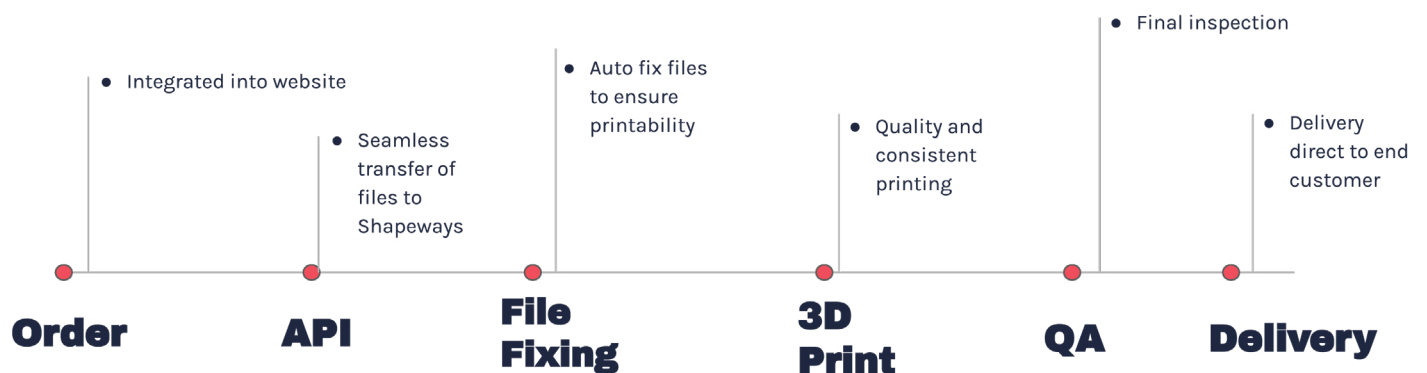

Injection Molding

Urethane Casting

Offerings

Shapeways is flexible when it comes to working with our customers, offering self-serve options for do-it-yourselfers along with different levels of managed services that provide expert support. That support includes seamless integrations with e-commerce apps, APIs, and third-party platforms offer fast, flexible paths to skyrocketing success.
